[Schematic]

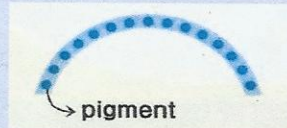

-Printing-

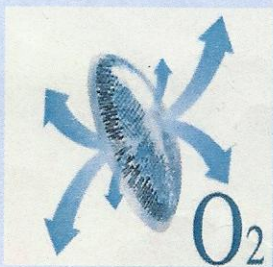

-Cast moulding-

-Dyeing-

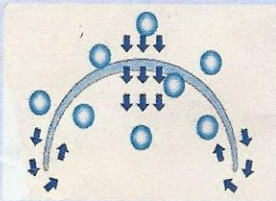

-Semi lathe-

The medical pigment used in this product has been approved by FDA in the United States and is manufactured under the regulations of KFDA. As a result, it is considered very safe for human eye health. Since the special manufacturing method, prevents surface protursion, the color does not run or breach. it will also give greater user comfort due to it's soft wearing and will prevent center movement and vision problems associated with eye dryness.

[3CURVES]

Our special thchnology and study invented 3-CURVE manufacturing system.

That helps tears turn around into the eye surface easily. it will provide you more and ultimate comforts.

Our exculsive color lens that express the most beautiful and natural colors, based on TWE's creative technology.

The best product satisfactory to customers who pursue natural eyes rather than flashy colors.
